**PROFILE**

I'm a web-programmer working with enthusiastic attitude with software projects, where I can use my programming skills and capability to learn new things. I face challenges with positive attitude and conquered them together with my team.

My goal is to develop myself to meet today's challenges as programmer, with my "We Can Do It Together" attitude. I have also strong personal will to support and help others to achieve theirs targets.

As a person, I am self motivated and organized team player and easy going person. I get along easily with different kind of peoples. I am motivated to receive new challenges and to work towards to overtake them.
